Administrative Remedy Informal Resolution Form - Response
FCI Loretto, Pennsylvania
TUSHA, Simon
Reg. No.: 04182-015
November 8, 2019

The following is in response to your *Administrative Remedy Informal Resolution*, dated November 7, 2019, and receipted by me on November 8, 2019. In this *Administrative Remedy Informal Resolution*, you ask to be submitted for a Residential Reentry Center or Home Confinement based upon your medical conditions. In remedy, you request "As per Regional Directors response, I am requesting home confinement or halfway house/residential reentry center placement."

In response, in an attempt to informally resolve your complaint, your request has been looked into. It is unclear what guidance from the Regional Director you are speaking of. Inmates are not submitted for Residential Reentry Center placement based upon medical conditions. Review of your Bureau Electronic Medical Record (BEMR) reveals that your medical needs are being met at FCI Loretto. If you feel you qualify, you may request Reduction in Sentence based upon your medical conditions. You may discuss with your Unit Team.

I trust that this addresses your concerns.
